

Consolidate real-time data to give you powerful insights from a single version of the truth

“The combination of consulting expertise and implementation experience convinced us. retailsolutions contributed an enormously valuable service to our IT-projects through its professional methodology”

B Grande, Head of IT Globus SB-Warenhaus

Do you need to make smart, fact-based decisions quickly but can't because your data is stored in different systems and formats?

Does it feel like you're spending too much time pulling information together and very little time analysing it?

RapidRetail Analytics by retailsolutions has the answer. Our powerful, intelligent, cloud-based analytics tool driven by SAP Analytics Cloud (SAC) enables you to make effective decisions with real time data. You can get access to preconfigured content and dashboards in as little as 4 weeks.

Here's a sample of the ways RapidRetail Analytics can support you...

Centralise your data, explore and collaborate from a single version of the truth

Powerful insights at the touch of a button with an intuitive user interface

Easily control access and put the right data in the right hands at the right time

Automate repetitive tasks with inbuilt machine learning capabilities

“The SAP connection will ultimately enable a comprehensive activation of our multichannel strategy. The team at retailsolutions fully met our expectations of a professional and collaborative partnership.”

Matthias Baumann, Director, Office World

RapidRetail ANALYTICS

Combining the intelligent functionality of SAC with the practicality of data visualisation and on-screen communications with your business teams to make better data-driven decisions.

We specialise in all aspects of SAP Retail. This includes supporting you in using advanced technology such as machine learning and AI to achieve maximum business value.

We are proud to be supporting quality retailers in their digital journey. Here are a few of our customers:
